NAVAL AVIATION SUPPORT

DESCRIPTION: Navy flyover, air show, static display and/or tactical aircraft or parachute demonstration

DIRECTIONS: The current (November 06) [DoD Form 2535](#) (see separate enclosure) must be completed in its entirety before your request for an Navy flyover, air show, static display and/or tactical aircraft or parachute demonstration will be considered. Some of the most common omissions include the signature by the sponsoring organization (Block 25a), certification by the "owner" of the event site (Block 3d) and approval by the local Federal Aviation Administration (FAA) Flight Standards District Office (FSDO)(Section IV). **All these must be taken care of before submission to the Naval Aviation Support Officer.** See our [How to Submit](#) (see enclosure) page for step-by-step instructions. Be sure to allow plenty of time (for example, deadline for 2009 is August 2008) and always follow-up.

THE BLUE ANGELS

DESCRIPTION: A Blue Angels flight demonstration exhibits choreographed refinements of skills possessed by all naval aviators. It includes the graceful aerobatic maneuvers of the four-plane Diamond Formation, in concert with the fast-paced, high-performance maneuvers of its two Solo Pilots. Finally, the team illustrates the pinnacle of precision flying, performing maneuvers locked as a unit in the renowned, six-jet Delta Formation.

DIRECTIONS: Fill out **DOD Form 2535** (attached – same form as Aviation Support). The **Application Deadline** is **August 1** for performances the following year. The **Deadline for 2009 is August 1, 2008**.

NAVY PARACHUTE TEAM – THE LEAP FROGS

DESCRIPTION: A typical Leap Frogs performance consists of fourteen jumpers leaping out of an aircraft at an altitude of 12,500 feet. During free fall, jumpers reach speeds of 120 mph and can accelerate up to 180 mph by pulling their arms to their sides and straightening their legs into what is called a "track."

The jumpers typically open their parachutes at around 5,000 feet by releasing a smaller pilot chute which deploys their main blue-and-gold canopy. After deploying their chutes, the Leap Frogs fly their canopies together to build dramatic canopy-relative work formations.

DIRECTIONS: If you are interested in requesting the U.S. Navy Parachute Team (NPT) "Leap Frogs" for your local event or air show, you must read the [NPT Handbook](#) and submit the last two pages (attached) to our office at (fax) 619-437-5676. A **completed DDFORM 2535** ([download](#)) (Aerial Support Request Form is attached) will be required if we are available to perform for your show, but not for your initial request. Leap Frog schedule for each year is designed in mid-December. **Please have all show requests submitted by December 15th.** Any request received after that date will be considered on a case-by-case basis. NOTE: The NPT conducts training from January - March, any request received for a show during those three months will only be considered on a case-by-case basis as well. If you need to contact the NPT please call 619-437-2820.

LOGISTICAL REQUIREMENTS:

- Ensure water available to fill 4,000 gallon dive tank either from fire hydrant or fire truck
- 110 volt power supply
- Flat hard-pack surface, able to support 75,000 lbs.
- Divers will rotate throughout the day so long days not an issue with 8 divers
- Strongly recommend recruiters are available to interact with target audience to field questions and collect leads (as appropriate)
- Dive tank is best used at large volume venues. i.e. Air Shows, large sporting events, state fairs etc.
