

# 2019-2020 AT A GLANCE

The United States is a maritime nation – we need to invest in our Sea Services to deter conflict, open seas for commerce and reverse the damage to readiness from years of overuse and underfunding. We must make the right investments for a return to great power competition posited in the “National Defense Strategy” and “National Security Strategy” and begin strengthening our forces. Working toward the following priorities in the 116<sup>th</sup> Congress will be our mission towards this call.
